Iteration 3 – Contributions
Bri
24 hrs – Junit testing
15 hrs – Making class box editable whilst maintaining mouselistener functionality
01 hr – Making comment box editable whilst maintaining mouselistener functionality
10 hrs – Making relationship interfaces/separating connector logic from arrows
08 hrs – Making relationship inspector (switch arrow direction/type, add multiplicity)
02 hrs – Implement cut, copy, paste, delete
06 hrs – Restructure – take drawing logic out of controller and move to canvas object, have main create instance of controller not view, move logic that should not be in mouse listener into controller/minimizing parameter passing/others
12 hrs – Creating action classes and undo/redo
07 hrs – Miscellaneous bugs/coding/other stuff I forget
01 hrs – specs update (incomplete)
86 hrs – total

Andrew
4 hrs – Specs update
4 hrs – Design restructure for iteration 3
3 hrs – Javadoc commenting and attempt to fix class box text wrapping
8 hrs – Interface testing
4 hrs – Junit testing
23 hrs – Total

Lukas
8 hrs – Save/open functionality
3 hrs – Junit testing
1 hr – Git repository management
12 hrs – Total

Don
2 hrs – Design documentation
4 hrs – UML design drafting
3 hrs – Iteration 3 restructure research
9 hrs – Total

Nick
4 hrs – Assisting in UML updates
4 hrs – Looking over restructures
2 hrs – Running tests for bugs
1 hrs – Assisting in Updating Specifications
2 hrs – Full/Partial group meetings
2 hrs – Llooking over project and preparing content for presentations
15 hrs – Total
